BL2000 Balloon Light: Glare-free Illumination in a Lightweight Package with a Variety of Mounting Solutions

Doosan Portable Power has improved the BL2000 balloon light to give you better light distribution and a greater variety of mounting solutions. Utilizing an automatically inflating tubular-shaped envelope allows you to diffuse light wherever it is needed with ease. This innovative envelope is coupled with Doosan's collection of tilting grip head stands that can accommodate various mounting devices. The BL2000 is the optimal choice for road paving, special events, entertainment and other applications where glare-free light is required.

- ◇ Plugs into any three-prong, 120-volt, 20-amp outlet and provides 2,000 watts of quiet, glare-free light
- ◇ Tubular-shaped envelope and internal reflective dome combine to light up a larger area
- ◇ Redesigned cage is lightweight, but strong and protects lamps from contact with the envelope
- ◇ Suspension-mounted lamp holder provides extra protection against rough handling
- ◇ Automatic shutoff protects against high internal temperatures
- ◇ Uses two 1,000-watt bulbs for easy replacement
- ◇ Durable storage tube protects your investment
