

# Internal Pneumatic Vibrators WPV Series

**Durability...** hardened steel components provide maximum operational hours

**Powerful...** high frequency and high amplitude of vibration

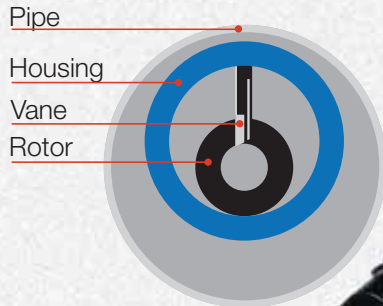

**Simplicity...** low maintenance bearingless air vibrator

**Safety...** work without electricity

- Maintenance-free handle with a valve admission system
- Oil reservoir, prepared for several days (fill at least once a week under normal conditions)
- Optimal relationship between frequency and amplitude for the right concrete compaction
- Standard 7' handling hose

### WPV System

### Specifications

MODEL	Diameter inches	Length inches	Weight lbs	Frequency vpm	Air Consumption cfm	Performance yards <sup>3</sup> /h
WPV 25	1	9	5.5	20,000	14	5
WPV 40	1.5	12	10	19,000	18	18
WPV 50	2	12	14	18,000	21	29
WPV 60	2.375	12	15	17,000	26	35
WPV 80	3	13.5	28	15,000	44	50
