BITYBREAKER
IMPACT BREAKER

Here's a solution to bulky compressors, leaking hoses, hot hydraulic oil and every other problem that makes running a jackhammer on small jobs so expensive. It's the M102 Bittybreaker®

It just might be the most useful hand-operated construction tool that you will ever use. Produces an incredible 1450 ft lbs of destructive energy per blow. Accepts a wide range of industry standard 1-1/8" x 6" shank jackhammer tools for any number of job applications. A Bittybreaker® quickly makes a sledgehammer or pick axe a thing of the past because it concentrates the blow force on the same spot until the job gets completed.

If you're looking for an inexpensive and productive solution to some real expensive problems, put a Bittybreaker® to work.

WHAT IT DOES

- **CUT ASPHALT**
- **TAMP DIRT**
- **BREAK CONCRETE**
- **BREAK FROST**
- **CHOP ROOTS**

SPECIFICATIONS

Hex Shank	1-1/8 inch (28 mm) hexagon
Tool Retainer	Accepts jackhammer tools with standard upset collar
Length	43 inches (1092 mm), less jackhammer tool
Impact Energy	1450 ft. lbs.
Frequency	10 to 20 blows/min as determined by operator
Weight	22 lbs (10 kg), less tool
