

SURFACE PREPARATION STRIPPERS

FCS10 RIP-R-STRIPPER® FLOOR COVERING STRIPPER

The FCS10 RIP-R-STRIPPER® is a highly productive solution for removing a wide range of floor covering materials found on both commercial and DIY projects. Its small size and light weight design makes it highly productive in hard to reach areas such as bathrooms, closets and foyers. The detachable operator handle allows for easy transport in today's smaller vehicles. Enhanced operator ergonomics and precise balance allow the FCS10 to work circles around larger stripper machines that lack the same agility and maneuverability. A wide range of straight and scoring type blades up to 10 inch cutting width are available for use on wood and concrete surfaces.

FEATURES

- 10 inch maximum cutting blade width
- Unitized, welded steel frame
- Anti-Vibe™ caster wheels
- Detachable composite operator handle
- Designed for easy transport in small vehicles

SPECIFICATIONS

Operating Environment	Nonhazardous type locations
Electric Motor	2300W, 115VAC, 60HZ, 15 amperes
Nominal Oscillations	3400/minute
Extension Cord	14-2 SJ x 13 foot (3.9 m) length
Dimensions	23-1/4" (591 mm) L x 8-1/4" (210 mm) W x 43-1/2" (1105 mm) H (w/o blade)
Weight	27 lbs (12.3 kg), less blade
